Summary

As a rookie front-end developer, I am just starting my career in the world of web development. I have a passion for designing and building user-friendly websites and applications that are both visually appealing and functional. I have honed my skills in HTML, CSS, and JavaScript and have gained experience working with popular front-end frameworks. My attention to detail and problem-solving skills allow me to tackle complex challenges and create solutions that enhance the user experience. I am eager to continue learning and growing in this fast-paced and dynamic field.

Experience

Organizer/Mentor

• Kathmandu, Bagmati
08/2022 - 08/2022

- Organized and led a front-end development workshop for first-year juniors, teaching foundational skills such as HTML, CSS, and JavaScript.
- Mentored a group of students throughout the workshop, providing personalized guidance and feedback on their coding projects.
- Assisted students in troubleshooting technical issues and helped them develop strategies for debugging their code.
- Fostered a collaborative and inclusive learning environment, encouraging students to share their ideas and ask questions.

Home Tutor

. • Kathmandu, Bagmati
06/2021 - 08/2021

- Experienced home tutor with a passion for helping students of all ages and abilities achieve academic success. Seeking a challenging tutoring position that will allow me to utilize my skills and knowledge to make a positive impact on the lives of my students.
- Tutored students in math, science, and English at the school levels. Developed customized lesson plans to meet the needs of each student and helped them improve their grades and confidence.
- Maintained open lines of communication with parents to keep them informed of their child's progress and address any concerns. Created a positive and supportive learning environment that encouraged students to ask questions and seek help when needed.
